

Testimonial from Nathaniel:

"Hugh Murray and the CPT Family,

I just wanted to take a minute to put into words how much I appreciate all that y'all have done for me over the course of the summer. Since I started working with you in May, the difference in my life and well-being is night and day. I remember not too long ago wondering whether I would ever be able to do the things that I love doing again and even wondering how I would be able to manage in my career given my inability to sit. However, after meeting with you I saw that there was a way through this that didn't involve surgery and the vast amount that I've learned from working with you has been of immeasurable benefit. I cannot even begin to relate how liberating it is to sleep soundly through the night and not wake up in pain every day. Plus, I'm beginning to be able to start to do the things that I love to do again without constant fear of further hurting myself.

In short, I really just wanted to say thanks for taking the time, effort, and energy to work with a young guy who had otherwise been adrift without a paddle. I feel like I finally have this injury under control and that I will be fully healed sooner rather than later. None of this would have been possible without the remarkable care that y'all provided, and for that, you have my deepest thanks.

Sincerely,

Nathaniel"
